OBJECTIVE

Software Engineering student specializing in web development, seeking a challenging position in a dynamic organization. Passionate about leveraging cutting-edge technologies to create innovative web solutions and exceeding expectations. Known for meticulous attention to detail, efficient coding practices, and strong problem-solving abilities. Eager to collaborate with talented professionals and make a significant impact in the field of web development.

EDUCATION

M.Tech(Int), Software Engineering	Sept 2021 – June 2026
VIT University	8.4 GPA

Intermediate	June 2019 – May 2021
Sri Chaitanya Jr College	95.5 %

TECHNICAL SKILLS

OS: Linux, Windows

frameworks and Tools: Web Development, Rstudio, MATLAB, Mysql

Programming: Python, C, C++, Java, Ruby, Javascript

Others: Git, Eclipse, canva, MS Office

SoftSkill: Communication, Leadship, Teamwork, Problem-solving

PROJECT

LandingWebsite, -Webdevelopment	July 2023
--	-----------

- It showcases to create visually appealing and interactive elements. (Html,css,javascript)
- The hover effect adds an extra layer of interactivity to engage users.these technologies to create a captivating web page that captures the attention of visitors

Testing MediMate Web Application, Software Testing	Feb 2023
---	----------

- MediMate's online application must perform as planned, identify issues, repair them, comply with standards, reduce errors, and check functionality.
- Regression testing ensures no alterations to existing functionality, integration tests ensure compatibility with other systems, and performance testing ensures performance under various load situations.

Med Apps, Quality Engineering Intern	June 2023
---	-----------

- The goal of the study is to use random forest, XG Boost and CNN techniques to create a model for precise automotive price forecasts.
- The model makes use of feature engineering techniques and uses a dataset of both new and old autos.
- Dealerships, individual sellers, online car marketplaces, insurance companies, financial institutions, and analysts in the automobile sector all use it to track and study pricing trends over time.

EXPERIENCE

NSS CLUB	Oct 2022
-----------------	----------

Design and Social Media (Co-lead)

- As a media manager, I organized and maintained various media content, including pictures, videos, and audio files.
- My responsibilities included categorizing assets, selecting relevant information, and ensuring proper file storage and backup. Collaborated with designers, authors, and developers.
- I will be collaborating with other club members to come up with creative ideas and concepts for campaigns.

Events Experience

- I arranged a few sporting events, community service projects, and coordinated activities with the leaders to keep the club operating within the right deciplane and the behaviour of the other team members.
